Indemnity

Survivor Face Shields are only used as a preventative measure in protecting the user from the virus. The Survivor Face Shield is not approved by any regulatory authority and no way are these shields warranted to protect the wearer against contracting the virus. The product is used at the sole risk of the user. CGI Creative Graphics International assumes no liability in the event of any wearer of these shields contracting any virus or injury sustained and the purchaser indemnifies CGI Creative Graphics International against all such claims. The Survivor Kiddies Face Shield should only be used by a child under strict adult / parental supervision. It should only be used for children from age 6 – 12 years old and should only be used as a preventative measure against contracting the virus. It is recommended that The Survivor Face Shield is cleaned using a soap solution or mild sanitizer before and after use. We would recommend using a soft cloth to avoid scuffing the shield during cleaning.
